Re: **TSPC Is Closing**

Dear Patient,

Thank you for placing your trust in Dr. Carmichael, Therapeutic Spine and Pain Center, and our staff. It has been a pleasure to serve the Bloomington community and to partner with you in working to improve your health and quality of life.

The nerve testing part of my practice has steadily grown and has helped fill a unique and important need for multiple medical medical centers including St. Francis, Midwest Orthopaedic Center, Riverside Health System and others and it has become clear that is how I should focus all my time. TSPC is closing it's doors as a Spine & Pain Center.

We will try to assist you as you seek other providers for your health care needs:

1. Please immediately identify other providers and make any necessary appointments. See the back side for listing of area providers. Also, please see your primary care for needs that are otherwise not being addressed.
2. Appointments: We are scheduling follow-up appointments that are essential for refilling expiring prescriptions or addressing emergent concerns. No new patients or procedures are being scheduled at this time.
3. Opioid pain medication – If you do not have remaining medication or refills through July 31, 2025, please call immediately to schedule a follow up. We cannot provide prescriptions over the phone for any restricted substances past 3 months since your last appointment.
4. Other Prescriptions or Concerns – Please call within the next two weeks if you need refills or have other medical concerns, although we will be responding to messages until at least July 16, 2025.
5. Medical records & Billing questions – You will be able to contact us through email and phone (email preferred) for medical records or billing issues for the foreseeable future at: info@therapeutic-spine.com and (309) 319-2341.

Sincerely,

Craig W Carmichael MD
